Installation of Rock Fall Barrier State Route 330 to Begin

SAN BERNARDINO – The California Department of Transportation (Caltrans) will begin a rock fall barrier project on State Route 330 (SR-330) near Running Springs. This \$5 million contract was awarded to Spectrum Construction Group, Inc. out of Irvine. This project will remove rock debris from the slope, excavate and reduce slope size and install two rock-fall barriers at Postmiles 37 and 39.

On Tuesday, July 17, drainage installation will begin near postmile 37 and 39 behind K-rail. Please expect delays during construction hours.

Beginning on September 9, 2019, a full closure will be in effect until September 23, 2019. During this closure, crews will perform rock scaling, slope excavations and construct the two rock-fall barriers.

Be advised, weather conditions may affect this operation. Know before you go! To stay on top of roadwork in the Inland Empire go to [Caltrans District 8](#) and sign up for commuter alerts. Follow us for the latest information on [Facebook](#) and [Twitter](#). To assist in planning your commute, view live traffic conditions using [QuickMap](#) and [planned lane closures](#).

For those with sensory disabilities requiring alternate formats (i.e. Braille, large print, sign language interpreter, etc.) and those needing information in a language other than English, please contact Emily Leinen at 909-383-1910 or TTY 711 by July 31, 2019.
